"Kidz with Leukemia: A Space Adventure" Produced by The Degge Group, Ltd.

Reviewed by experts in Pediatric Oncology, Parents and Children!

- "Different levels of learning. Content is thorough and entertaining. Content for each group is appropriate and is done in a professional manner but very patient/family friendly."
- "Very age/developmentally appropriate for kids."
- "Video clips with real children were terrific."
- "Very complete- great and fun! Accurate- great animation and pictures with live video with clarity in sound. Thoroughly enjoyed this."
- "The CD-ROM was a fun way to learn about leukemia, its treatment, and side effects. It is general, so any institution could fit it into their teaching program. It could even be used by schools to educate classmates."
- "Extremely thorough in the information it contains."
- "Upbeat"
- "The Book Section is especially good for parents."
- "This is a fantastic resource for children with leukemia, siblings, and friends to develop a better understanding of an all too often frightening experience."
- "Cute, colorful, informative. Great program for kids and newly diagnosed families."
